JAVASCRIPT CERTIFICATION

Gedeon Nzemba

HAS BEEN RECOGNIZED FULLY CAPABLE AND SKILLED IN
JAVASCRIPT PROBLEM SOLVING

DATE: FEB 16, 2024

A stylized, handwritten signature in gold ink.

Frédéric Desmoulins
CodinGame CEO

Upon the recommendation of the Faculty and by the authority of the Academic Board of Shaw Academy, the Academy has conferred the

Professional Diploma
in
Web Development
on

Gedeon Christ

who has successfully completed the course and acquired the Shaw Academy Diploma.

Grade: Distinction

Dated: 20 March 2019

In witness whereof, the seal of the Academy is impressed upon this parchment.

JAMES EGAN
CERTIFICATION OFFICER

Accredited by:
International
Accreditation
Organization

ICSOC
International Council of Specialized
Online Certifications

Upon recommendation of the Faculty and by the authority of the Academic Board of Shaw Academy, the Academy has conferred the

Professional Diploma

in

Web Development

on

Gedeon Christ

who has successfully completed the EQF Level 5 Professional Diploma in Web Development course and is therefore awarded this diploma with

GRADE: Distinction

DATED: 20th March 2019

In witness whereof, the seal of the Academy is impressed upon this parchment

GAVIN McGRATH
CERTIFICATION OFFICER

**European
Qualifications
Framework**

This is to certify that

GEDEON NZEMBA

ID No: 980924500631

has successfully completed a course in

**P.C. REPAIRS AND MOBILE APP
DEVELOPMENT**

Introduction to Information Systems
Troubleshooting
Setting up a Workgroup and Domain
Working in a Windows 2008 Server Environment
Installing Windows 7 and Windows 8.1 Operating Systems
Installing MS Office 2007 and 2013
Configuring Hardware and Software
Binary and Hexidecimal Equations
Mobile App Development
Installing and using Android Studio
Installing and using PhoneGap
Installing and using MyEclipse 2015

Course Leader

29 June 2018

Date Issued

Project Co-ordinator

Certificate No.: PC3/2018/16

This is to certify that

GEDEON NZEMBA

ID No: 9809245006031

has successfully completed a course in

COMPUTER LITERACY

MS Word
MS Excel
MS Access Basic
Internet
Email

AND
OFFICE ADMINISTRATION

Letters, Memo's
Petty Cash Vouchers
Invoices, Receipts
Notification of Meetings
Minutes of Meetings

Course Leader

24 August 2018

Date Issued

Project Co-ordinator

Certificate No.: CL4/2018/014

Project supported by the European Union

COURSE MASTERY CERTIFICATE

IT Academy

a division of IT SA Computer Services & Solutions (Pty) Ltd.
(Registration Number: 2008/000582/07)

hereby certifies that

Gedeon Christ Nzemba

ID Number: 9809246447267

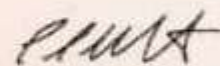

has successfully completed the course in

70-357 Developing Mobile Apps

Consisting of:

Introducing UWP and Basic App Layouts
Adaptive App Design
XAML App Controls
App Navigation
Application Life Cycle
Data Access and Binding in Apps
Using Mouse, Touch, and Keyboard Input
Using Other Device Input Methods
Speech Input and Cortana
App-to-app Communication and File Storage
Notifications with Toasts and Tiles
Background Tasks and Reusable Components
Authentication and Identity Management

TeamOnTheRoadAgain

IN PARTNERSHIP WITH

WhereIsMyTransport

Stuck in traffic again... 🚗🚗🚗

- As our cities grow, so do our problems... BUT we can solve this by sticking together (not stuck in traffic!)
- Align different stakeholders under one umbrella. The commuter, data providers and incident/emergency response
- UDrive will foster open data and community by letting our end user – the commuter on our roads – communicate with our data.
- Connecting iTraffic, WhereIsMyTransport and ETC data, in your social message app or via sms

IN PARTNERSHIP WITH

WhereIsMyTransport

Meet James...

James lives at 23 Vilakazi Street, Orlando West. He works as a site supervisor for a construction company based in Randburg, but has to get to sites all around Johannesburg.

James mainly uses the Metrorail trains and buses to get to work. Sometimes he has access to the company bakkie but often he has to find his way home from a place he doesn't know well.

But James does not know which mode of transport is time efficient when travelling between the different sites, or even which ones are available.

He also does not know which routes to use to avoid traffic jams if he uses the company bakkie

Okay chatbot... UDrive

James meets UDrive, a chatbot designed specifically to help with the problems he has at hand.

IN PARTNERSHIP WITH

WhereIsMyTransport

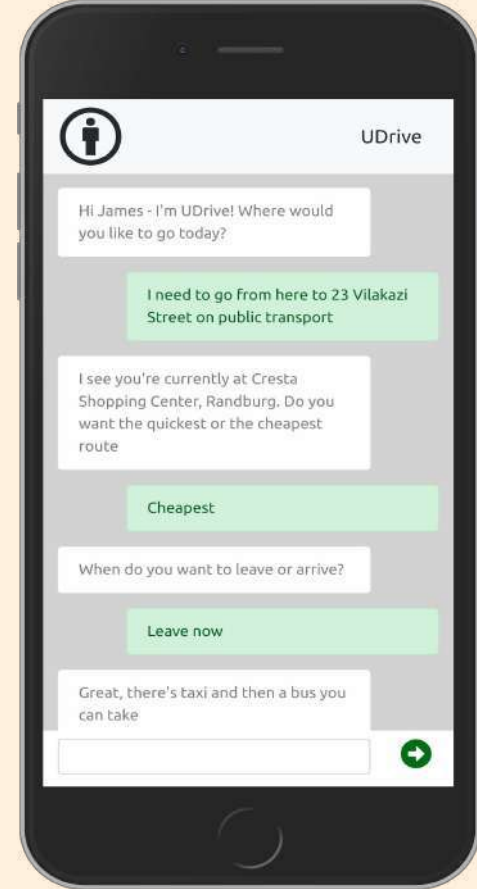

Okay chatbot... UDrive

James meets UDrive, a chatbot designed specifically to help with the problems he has at hand.

UDrive will help James:

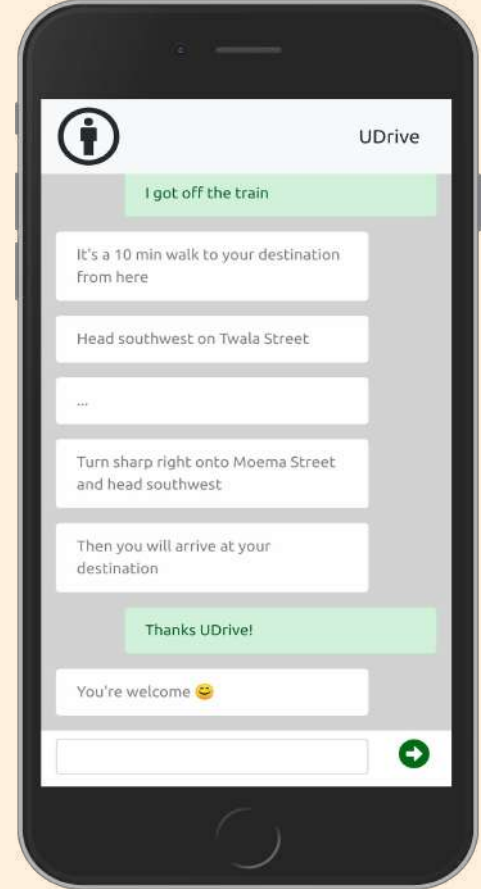

- Select the best option from taking public transport to driving himself
- Choose the best route depending on if he wants to get there fast or save money
- Navigate with step by step direction messages
- Get back on track if he gets lost

Okay chatbot... UDrive

If James is driving himself

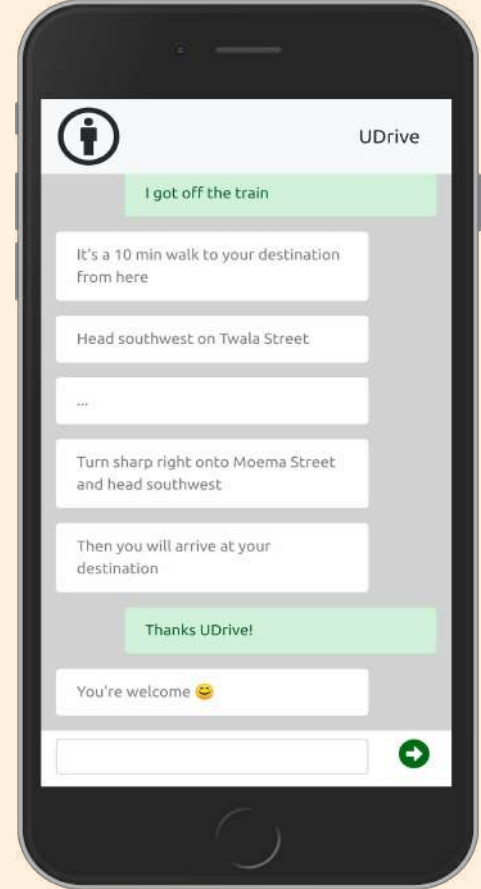

- We can give James a heads up on exactly how much his e-tolls will be, for a trip or on a month to month bases
- We'll let him know if he should leave earlier to avoid traffic
- We can also inform James of any rewards or discounts if he avoids using toll roads in congested conditions

How does it work?

Add UDrive as a contact and then simply chat over SMS or Whatsapp

- On the backend, each user's profile is stored
- Route and Traffic data is sourced from WhereIsMyTransport, Google Maps, ETC and i-Traffic
- UDrive's Natural Language Processing AI will interpret messages and respond with what you need or ask more questions

UDrive is for everyone

- Services like Uber only manage one type of transport and Google maps doesn't know South African public transport. Plus you need a smartphone that eats data and you need to know how to read maps
- UDrive is for everyone, you don't need a smartphone to use it, you just need a simple phone
- User interaction monetizes user data. By helping the driver, they help us; giving us up to date Telematics and GPS data without needing an oracle to predict upcoming traffic

IN PARTNERSHIP WITH

WhereIsMyTransport

Our mission

- We take care of the How, When and Where of transport for our users
- We give feedback on how much time and money you've saved / spent on transport to help you plan better
- We connect all the different sources of transport information in one simple, easy for everyone place
- While users get help planning their commute, emergency response personnel, transport & infrastructure operators can plan what they do better
